Sten decides to weigh his snowballs.

Which of them weigh 24.6g when rounded to one decimal place?

Draw a line from those to the centre snowball.

One has been done for you.

24.36g

24.63g

24.67g

24.58g

24.64g

24.6g

24.73g

Think of five weights of your own that are accurate to 2 decimal places and list them below.

Then ask a friend to round them to the nearest tenth.

Are they right?

1 \_\_\_\_\_ to the nearest tenth is \_\_\_\_\_

2 \_\_\_\_\_ to the nearest tenth is \_\_\_\_\_

3 \_\_\_\_\_ to the nearest tenth is \_\_\_\_\_

4 \_\_\_\_\_ to the nearest tenth is \_\_\_\_\_
