Little Acorns
Addition and Subtraction Challenge Cards

★★

1. The autumn winds blew leaves off the tree. One storm blew off 18 leaves and another storm blew off 25 leaves. How many leaves were blown off altogether?

★★

2. There were 26 acorns on the ground. Some squirrels collected 17 of them for food. How many acorns were left?

★★

3. 17 bees and 24 beetles lived in the oak. How many insects were living in the oak altogether?

4. After growing for a few years, the tree's roots were 37cm long. Its stem was 9cm shorter than the roots. How long was the stem?

Answers

1. 43 leaves
2. 9 acorns
3. 41 insects
4. 28cm
