

Starlings Homework Project!

January 2024

This half term we are learning all about our world. For our homework project, the children are being asked to create their own world. You can either create your own town/ city/ village, or you can recreate a place that you have been to. For example, you could draw a rainforest featuring animals that may live there.

You can be as creative as you wish. You can make a model, use Lego, draw a picture. You can even make a digital world!

The children will share their fact files with the class on **Monday 5th February.**

Thank you for your continued support.

Miss Harris.
